Assessors' Report

of

REAL ESTATE VALUATION

IN THE TOWN OF

WILMINGTON

MASSACHUSETTS

FOR THE YEAR

1940

WHCC2-11

Foreword . . .

To the Wilmington Tax Payers:

The Board of Assessors respectfully submit herewith the valuation list of Wilmington properties as of January 1, 1940.

We wish to call your attention to the fact that tax assessing work is done as of one day only, namely January 1st. of each year. Should you build a house during the month of January you need not pay any tax on the house for the balance of the year, but only on the land. Properties are assessed as prescribed by law for their "fair market value" and not for two-thirds or three-quarters of their value as is commonly misunderstood.

It is not an easy matter to define value either under the law or between individuals. The latest text book writers on taxation find the greatest difficulty with this subject which is often decided by judges and real estate experts by a wave of the hand.

In a general way, the market value of real estate is the amount which one desiring, but not compelled to purchase, will pay under ordinary circumstances to a seller who desires, but is not compelled to sell. The valuation of real estate has not yet been developed into an exact science, and probably never will be. Value in the final analysis is a matter of opinion.

We, as a board, have tried to be fair, and to treat everybody alike. Having tried to touch on the high-lights of this important and vital work, we trust you will find satisfaction in looking over these pages.

Respectfully yours,

GEORGE W. BUCK,
JOHN D. COOKE,
WILLIAM H. DOUCETTE,

Wilmington Board of Assessors.

	Valuation
